Hi John,

Your Notice of Intention to Commence Small Mining operations in Beaver county is mostly complete, but there are a few things that we will need you to do before we can issue a permit for removal of the tailings. I left you a phone message, and then spoke with Ben to let him know about this, and he is cc'd:

We need you to do the following before we can issue approval:

1) Complete your Notice. Specifically, send me an email to confirm the following:

- That you don't plan to widen the existing roads.
- That you want to add to the Notice the attached map showing the road access to the site (or another map that meets our rules).
- That you want me to write a note on the map, indicating that you are not responsible for any of the visible disturbance outside your planned disturbance boundary.
- That you want to remove your request for variances. (I understand your concern, and we will not hold you to a vegetation standard, since the tailings are bare. We will also not require you to clean up anything you disturb beyond the pre-mining conditions. Please call me to discuss.)

2) Provide a Reclamation Contract. This needs to be signed and notarized and mailed back in to the Division. Here is the link to the document: [https://fs.ogm.utah.gov/PUB/MINES/Minerals\\_Related/FORMS/MR-RC-SMO.pdf](https://fs.ogm.utah.gov/PUB/MINES/Minerals_Related/FORMS/MR-RC-SMO.pdf)

3) Provide a reclamation surety in the amount of \$7,700. This is the amount that the BLM and the Division have agreed upon. Ben mentioned you want to provide a CD. Penny Berry (bond coordinator - 801-538-5291) can make sure you get the right forms for the bank to sign.

Let me know if you have any questions.

Peter
